THE WORLD IS ADAPTING TO NEW DEMANDS And so does Matador!

 *Stilstand is achteruitgang. Zo zegt een Nederlands spreekwoord. Wij geven de voorkeur aan innovatie en vooruitgang. De wereld verandert in rap tempo en wij doen even snel mee. Maak kennis met onze nieuwe ergonomische productlijn E-Matador, een serie van elektrische kruiwagens. Degelijk, hoge kwaliteit en met een ergonomisch keurmerk. Of ontdek onze Rebel serie, de oersterke maar lichtgewicht aluminium plateauwagens. Ook nieuw is onze productlijn van ergonomische Zami stoelen voor op kantoor, op school, in magazijnen of voor het toenemende thuiswerken. Heeft u vragen over onze producten? Neem dan contact op met ons salesteam. Wij staan u graag persoonlijk te woord.*

 *Stagnation means downfall. So says a Dutch proverb. We prefer innovation and progress. The world is changing rapidly and we are participating just as quickly. Discover our new ergonomic product line E-Matador, a series of electric wheelbarrows. Solid, with high quality and an ergonomic quality mark. Or discover our Rebel range, the extremely strong but lightweight aluminum platformtrucks. Also discover our product line of ergonomic Zami chairs for every office, school, warehouse or for the growing number of home workers. Do you have any questions about our products? Please contact our sales team. We are happy to assist you personally.*

MATADOR®

THE PROFESSIONALS CHOICE

since 1895

 Matador® is een op service gerichte onderneming, opgericht in 1895 en sinds 1952 gesitueerd in Helvoirt, Nederland. Matador® heeft zo'n 9000 m², meer dan 85 vakmensen en meer dan 125 jaar ervaring in metaaltechnologie. Met trots presenteren we ons complete Matador® assortiment, kruiwagens, steekwagens en hulpmiddelen voor bouw, land- en tuinbouw industrie. Matador® is uw betrouwbare partner voor met name niet verspanende verwerking van metalen buis en plaatmaterialen, staalconstructies en metalen onderdelen. Met metaalmaatwerk (OEM) levert Matador® een breed assortiment aan oplossingen, die volledig aan de wensen van de klant voldoen. We hebben het "Full Service Concept" waarmee bijna alles onder één dak gemaakt wordt. Authentieke metaaltechnologie met het FSC concept; een efficiënt en kosteneffectief voordeel.

 Matador® is a service-oriented organization founded in 1895 and has been located in Helvoirt, the Netherlands, since 1952. With 9,000 m² of floor area, more than 85 trained professionals and over 125 years of expertise in the steel sector, we are especially proud of our own brand Matador®. Consisting of wheelbarrows, hand trucks and tools. Matador® is your reliable partner for non-cutting applications for metal tubes, constructions and metal sheets. With Custom Metal-OEM, Matador® also delivers a wide range of products to meet the special needs of our customers. With our full service concept we can develop almost everything in-house: an efficient and cost-effective advantage.

 Matador® est une entreprise fondée en 1895 située à Helvoirt aux Pays-Bas. Depuis plus de 125 ans, sa maîtrise de la transformation de l'acier fait de Matador® un spécialiste du service aux professionnels. Sur notre site de production de 9000 M², nos 85 collaborateurs spécialisés sont très fiers de produire une large gamme de brouettes, diables de transport et autres outils. Matador® est ainsi un partenaire sûr et fiable pour le façonnage de tubes en acier, tôles et autres réalisations métalliques. Conception Sur Mesure: Matador® est compétent pour concevoir et fabriquer une large gamme de produits sur mesure répondant aux besoins spécifiques de nos clients. Notre organisation de production nous permet de réaliser pratiquement tout dans notre propre usine, ce qui nous offre un avantage réel sur le rapport coût-efficacité.

 Matador® ist ein Service-orientiertes Unternehmen, gegründet 1895 und seit 1952 in Helvoirt/Niederlande ansässig. Mit 9.000 m² Produktionsfläche, mehr als 85 ausgebildeten Profis und über 125 Jahren Erfahrung in der Stahlbearbeitung. Ganz besonders stolz sind wir auf unsere Eigenmarke Matador® Schubkarren, Sackkarren und Transportgeräten. Matador® ist Ihr zuverlässiger Partner für die Verformung von Stahlrohren, Profilen und Flachblechen. Matador® liefert auch ein breites Programm von Produkten, speziell nach den Wünschen unserer Kunden hergestellt. Mit unserem Full-Service-Konzept entwickeln wir fast alles im eigenen Hause: ein effizienter und kostengünstiges Vorgehen.

as a mission

Businesses and buyers purchasing devices want to be sure that they make the right choice. Matador® and resellers of our devices want to guarantee their customers that they do. VHP investigates if products comply with all the imposed laws, requirements and standards.

The ergonomics VHP label is awarded to many Matador products!

On top of that, all of our products are produced according to the Lean Manufacturing System and to the philosophy of Cradle to cradle.

99 SHADES OF GREY

THE STORY OF MATADOR GREY

No, of course Matador® has nothing to do with spicy books! But Matador® has its own 99 shades of grey! Over the years our colour grey has grown into a 'Matador®-own color grey'! We use a thermosetting upcycled polyester powder, composed of dozens of waste powders that are released from production.

The use of powder coating has many advantages: concrete residues are easy to remove from the wheelbarrow, it has good adhesion qualities and is more scratch-resistant than other paints. In addition, the application of powder coating is more durable. There are no solvents such as white spirit or turpentine used during the process.

locks & security:

PREVENT ANY UNWANTED ENTRANCE!

 **BESCHERM UW EIGENDOMMEN MET ONZE HOGE KWALITEIT ANTI DIEFSTAL SLOTEN**

Diefstallen van materialen uit bussen en bestelwagens stijgen. Het inbrekersgilde lijkt een nieuwe doelgroep te hebben gevonden met een interessante buit: bouwmaterialen. De waarde van het materiaal in voertuigen is aanzienlijk en vaak niet verzekerd. Voorkom schade aan uw voertuig, ontevreden klanten en dus ook omzetverlies. Matador® biedt metalen sloten voor auto's, bussen en overige voertuigen. Deze zijn beschikbaar voor de achterdeur, zijdeur en de trekhaak.

Onderneem actie met Matador® sloten die uw voertuig beschermen tegen inbraak en diefstal moeiliijk maakt voor dieven!

 **PROTECT YOUR PROPERTY WITH OUR HIGH QUALITY ANTI-THEFT LOCKS**

Notification about theft of materials from vans and delivery cars increases. Burglars seem to have found a new target group and interesting loot: building materials. The value of the material in vehicles is considerable and often not insured. Prevent damage to the bus, declaring customers and thus sales loss. Matador® provides metal locks for cars, buses or other vehicles. Available for rear door, side door and towing hook.

Take action with Matador® locks prevent burglary and make theft difficult for thieves!

 **PROTÉGEZ VOS BIENS AVEC NOTRE SYSTÈME DE SÉCURITÉ DE GRANDE QUALITÉ.**

De plus en plus de vols d'équipements à l'intérieur des véhicules professionnels sont constatés aujourd'hui. En effet, les cambrioleurs semblent avoir trouvé une nouvelle cible : les équipements professionnels du bâtiment. La valeur des ces équipements à l'intérieur des véhicules est importante et souvent mal ou pas assurée. Notre système de sécurité vous vous évite les démarches de déclaration de vol, toute perte de temps et d'argent liées à la dégradation de votre véhicule. Matador® produit un système de sécurité de haute qualité pour les véhicules légers ou utilitaires. Disponible pour protéger les portes arrières, latérales ou connectable sur boule d'attelage.

Rendez la vie plus difficile aux voleurs avec le système de sécurité Matador®.

 **SCHÜTZEN SIE IHR EIGENTUM MIT UNSEREM QUALITATIV HOCHWERTIGEN ANTI-DIEBSTAHL SCHLÖSSERN.**

Die Einbrüche in Transport- und Auslieferungsfahrzeuge steigen. Es scheint so als ob die Diebesbanden eine neue interessante Zielgruppe ausgemacht haben: Werkzeuge von Handwerkern. Der Wert der Werkzeuge im Auto ist erheblich und oftmals nicht versichert. Vermeiden Sie Beschädigungen an Ihrem Transporter, Umsatzverluste und Kundenunzufriedenheiten aufgrund von Ausfallzeiten. Matador® bietet Metallschlösser für Transporter, Werkstattwagen und andere Fahrzeuge. Verfügbar für die Seiten- und Hintertür sowie zum Aufsetzen auf die Anhängerkupplung.

Warten Sie nicht auf den ersten Schadensfall. Schützen Sie sich mit Matador® Schließvorrichtungen und machen Sie es Dieben schwer!

WE would like to tell something about our building equipment!

4 THINGS YOU NEED TO KNOW

SMART INNOVATIONS FOR THE PROFESSIONAL

You might not always think about ways to solve heavy work: WE DO! And successfully as well! Our range of building equipment has been designed and produced to make work easier for building and logistic personnel. We are specifically very proud of our ergonomic products. They can easily be found as they are marked with .

SLIMME INNOVATIES VOOR DE PROFESSIONAL

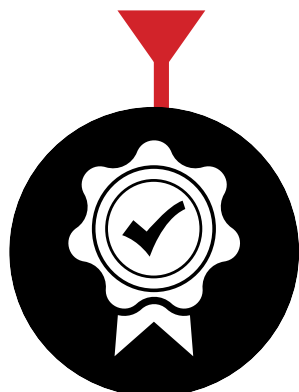

Wellicht sta je niet altijd stil bij oplossingen voor zwaar werk: WIJ WEL! En met succes! Bekijk hier onze productlijn speciaal geschikt voor logistiek medewerkers en bouwpersoneel. We zijn vooral erg trots op onze ergonomische producten. Je vind ze eenvoudig via dit icoon .

DES INNOVATIONS ASTUCIEUSES POUR LES PROFESSIONNELS

Vous ne devriez pas réfléchir à comment résoudre vos problèmes professionnels : nous le faisons à votre place, et avec succès. Détaillez notre gamme d'outils pour le bâtiment, conçus et fabriqués pour rendre la vie plus facile des utilisateurs dans le bâtiment ou la logistique par exemple. Nous sommes particulièrement fiers de nos outils ergonomiques, vous les reconnaîtrez facilement grâce à l'icône .

CLEVERE INNOVATIONEN FÜR DIE PROFIS

Sie sollten sich nicht den Kopf darüber zerbrechen, wie Sie schwere Arbeit bewältigen: Das machen wir für Sie! Und mit Erfolg! Schauen Sie durch unsere Auswahl an Bauwerkzeugen, entwickelt und produziert um die Arbeit der Handwerker zu erleichtern. Wir sind sehr stolz auf unsere ergonomischen Produkte. Leicht zu finden, durch diese Zeichen .

IT TAKES
EXCELLENT
PARTS TO
MAKE
EXCELLENT
PRODUCTS.

While many Japanese manufacturing companies are shifting their productions to overseas, Prestar parts and products are made in Japan in their own factory, from making pipes to shaping angle bars, manufacturing and assembling castor components and creating plastic products from base plates to resin castors.

Prestar is about high quality products that are widely used wherever goods need to be moved.

Prestar products are applied with 'Double coating paint', which is high quality coating normally applied to cars. The manufacturer is supporting customers by delivering corrosion-resistant, beautiful and high quality products using the latest technologies in their factories continuously. They are proud of making work more comfortable for people throughout the world.

MATADOR® HAS BEEN THE PROUD
EXCLUSIVE WHOLESALER OF PRESTAR
PRODUCTS IN EUROPE FOR OVER 30 YEARS!

116 Zami Stool

116 Zami Desk

120 Logistics

WE want to tell something about our workspace products!

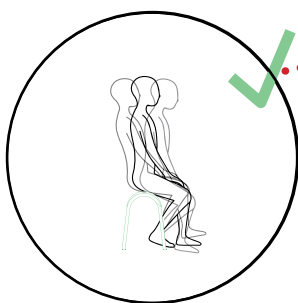

6 THINGS YOU NEED TO KNOW

 Design ontmoet ergonomie met de Zami zit-sta-combinatie. Zami is een nieuwe ergonomische stoel die actief zitten stimuleert. Zami is de oplossing voor verkeerd zitgedrag bij kinderen, in magazijnen, werkplaatsen en voor kantoormedewerkers. Ook het groeiend aantal kantoormedewerkers dat thuis werkt profiteert met Zami van ergonomische voordelen in huiselijke sfeer. Een gezonde houding staat centraal in het ontwerp van alle Zami-producten. Zitten op een Zami dwingt gebruikers om regelmatig te bewegen. Dat resulteert in een optimale kromming van de wervelkolom. De stoel vormt samen met een in hoogte verstelbare tafel een unieke ergonomische combinatie waarbij je afwisselend staand en zittend werkt.

 Design meets ergo with Zami sit-stand combination. Zami is a new ergonomic chair that encourages active sitting. Zami is the solution for incorrect seating behavior among children, in warehouses, workshops and for office employees and for the growing number of office workers who increasingly work at home. A healthy attitude is central to the design of all Zami products. Sitting on a Zami forces users to move regularly, resulting in an optimal curvature of the spine. The chair, together with a in height-adjustable table, forms a unique ergonomic combination in which you alternately work standing and sitting.

 Le design du siège ZAMI est la solution la plus ergonomique en mode assis-debout. Zami est un nouveau siège ergonomique qui encourage une assise active. Zami est la solution pour améliorer l'assise chez les enfants, dans les entrepôts, les ateliers et pour les employés de bureau. Nous voyons un nombre croissant de personnes qui travaillent à la maison. Une attitude saine est au cœur de la conception de tous les produits Zami. S'asseoir sur un Zami oblige les utilisateurs à se déplacer régulièrement, ce qui entraîne une courbure optimale de la colonne vertébrale. S'asseoir sur un siège avec une table réglable en hauteur, forment une combinaison ergonomique unique dans laquelle vous travaillez alternativement debout et assis.

 Design trifft Ergo mit der Zami Sitz-Stand-Kombination. Zami ist ein neuer ergonomischer Stuhl, der zum aktiven Sitzen einlädt. Zami ist die Lösung für falsches Sitzverhalten bei Kindern, in Lagern, Werkstätten und für Büroangestellte sowie für die wachsende Zahl von Angestellten, die zunehmend zu Hause arbeiten. Eine gesunde Einstellung ist für das Design aller Zami-Produkte von zentraler Bedeutung. Das Sitzen auf einem Zami zwingt den Benutzer, sich regelmäßig zu bewegen, was zu einer optimalen Krümmung der Wirbelsäule führt. Der Stuhl bildet zusammen mit einem höhenverstellbaren Tisch eine einzigartige ergonomische Kombination, in der Sie abwechselnd im Stehen und Sitzen arbeiten können.

THE SMART + ERGONOMIC SITTING SOLUTION

Op de Z1M1 neemt u de juiste rug houding aan net als bij staan
On the Z1M1 you take the right back posture exactly as standing
En utilisant le siège Z1M1 votre dos garde la même position
Auf dem Z1M1 nehmen Sie genau wie im Stehen die richtige Rückenhaltung an

Varieer van tijd tot tijd uw zitpositie en stand van de benen
Vary your position and position of the legs from time to time
Alternez de temps en temps votre position assise ainsi que la position de vos jambes
Variieren Sie von Zeit zu Zeit Ihre Sitzposition und die Position der Beine

Zit ook eens dwars op de Z1M1
Sit once transversely to the Z1M1
Variez en vous asseyant en biais sur le Z1M1
Setzen Sie sich quer über den Z1M1

lifting equipment

128 Hydraulic lifting tables

WE want to tell something about our lifting equipment!

6 THINGS YOU NEED TO KNOW

 Bij het bepalen van "de beste methode voor het tillen en positioneren" denk dan ook aan onze schaarheftafels. Alle artikelen zijn ontworpen om de werklast te verlichten en tijd en geld te besparen. Onze producten zijn getest om de zwaarste industriële omgevingen te weerstaan waaronder magazijnen, fabrieken en assemblagelijnen.

 When determining 'the best method of lifting and positioning materials' consider our lifting tables. All our lifting tables are designed to enhance product workflow, ultimately saving time and costs. Our lifting tables have been tested to withstand the toughest industrial environments including warehouses, factories and assembly lines.

 Lorsque vous aurez à faire le meilleur choix possible pour vous équiper de matériel de levage ou de positionnement, pensez à tables elevatrices. Tous les produits de notre gamme sont conçus pour améliorer la productivité, vous faire économiser du temps et de l'argent. Tous les produits ont été testé pour résister aux environnements de travail les plus durs tels que les entrepôts, usines et chaînes industrielles de montage.

 Wenn Sie versuchen festzustellen welches die beste Methode ist, um Material zu heben und transportieren, betrachten Sie auch unsere Scherenhubtische. Diese Produkte sind für den Produktionsablauf entwickelt um Zeit und Kosten zu sparen. Unsere Produkte sind getestet um den härtesten industriellen Bedingungen wie im Lagerhaus, in Fabriken und an Produktionslinien standzuhalten.

1

High quality

Top kwaliteit
Grande qualité
Hohe Qualität

2

Very solid

Zeer stevig
Grande robustesse
Sehr solide
